Educational Director,
Museum of the Numismatic Society,
City.

Dear Sir:

For my classes of teachers on the
Organization of Creative Activities in Schools I am
seeking data, outlines, and other matter
to motivate work for children in a vital way.
Do you offer any such service to teachers
and schools? Do you lend exhibits
of charts, pictures, slides? If so, at
what cost?

Can you send me enough lists of
data offered, - enough to supply thirty
teachers?

Sincerely yours,
John L. Foley

Mr. John L. Foley,
New York, N.Y.

Dear Sir:

Responding to yours of the 15th: Because we find that most of our material requires more in the way of preparation than our high schools provide, we have given very little attention to presenting numismatics to school children. I regret that we have no material that would answer the purpose of your inquiry.

Very truly yours,

Secretary
